Practical: Statical Analysis - Automated Bug Hunting and Beyond
Relational Domains

Alina Weber-H., Rebecca Ghidini, Jennie Harel Liangga, Nicolai Frech, Gabriel Lackermeier

WS 2023/24
November 16, 2023

Progress

- Datatype for Abstract Domain
  -> (int * Mpqf.t) Array.t option
- Make a first test case
- First draft for meet and join

Next Steps

- ▸ Translate our ideas to code
- ▸ Adapt the remaining functions to our use case
- ▸ Improve our test suite

Questions

- Is the offset an integer or should we use Mpqf?
- Is there documentation for the functions defined in affineEqualityDomain?
- Arrays do not have a hash -> should we implement our own hash function? Is it possible
